# Clovis COLLEGIVM

- Developed to leverage the web as a personal tutor according to pedagogical principles
- Teaches the seven arts program, using original texts in original languages
- Personalized attention of a computer program working the curriculum intimately with a student is analogous to the role of the ancient tutor
- Works around mono-linguistic contextual content

# Septem Artes/Seven arts

- Trivium "right-brained" studies

- Grammar
- Rhetoric
- Dialectic

- Quadrivium "left-brained" studies

- Music
- Arithmetic
- Geometry
- Astronomy (with annotations for modern corrections)

# COLLEGIVM

## *benefits in learning*

- Offers tools for teachers for multi-medial mono-linguistic lessons
- Exercises for vocabulary, grammar, listening and writing
- Program monitors progress and facilitates remedial as well as enriching activities
- Instruction using original classical texts and fun, modern conversations
- In effect student gets a private tutor every night to teach, reinforce, drill and evaluate

# COLLEGIVM Grammar

*benefits in teaching*

- Frees teacher from repetitive mundane tasks, enables more creative high level instruction
- Automatically prepares and evaluates homework
- Generates tests and quizzes with answer key
- Generates reports
  - Monitor general progress of class
  - Identify students in need of remediation
